Skills

C, C++, C#, Java, JavaScript, React, Linux, SQL, Oracle, PHP, JSP, ASP, HTML

Summary of Qualifications

- Studying Software Engineering Technician in Centennial College
- Bachelor's degree in Computer Science
- Associate degree in Information Technology

Work Experience

Senior Station Control Officer

Mar 2019- Nov 2023

MTR Corporation Limited, Kowloon Bay, Hong Kong

- Managed daily operations of a Class A station, ensuring efficient train service and station environment.
- Acted as local-in-charge during incidents, coordinating with senior officials and internal/external parties.
- Supervised staff, monitored contractors, and oversaw station equipment and systems to maintain service standards.
- Prepared contingency plans, safeguarded revenue, and deputized for the Station Landlord when required.

Station Control Officer

Mar 2019- Nov 2023

MTR Corporation Limited, Kowloon Bay, Hong Kong

- Assisted in managing station operations to ensure safe, efficient, and high-quality customer service.
- Acted as shift-in-charge when needed, protecting revenue and assets, and preparing duty rosters.
- Trained staff, monitored contractors, and handled incidents to maintain operational standards.

- Coordinated with internal and external parties to ensure seamless station operations and revenue control.

Education

Diploma, Software Engineering Technician

January 2024- Now

Centennial College, Toronto, ON

- Proficient in Modern Software Development Tools
Gained hands-on experience with C#, Python, Java, HTML5/CSS/JavaScript/React, .NET Core, Oracle, and MS-SQL Server.
- Strong Understanding of Software Engineering Methodologies
Developed expertise in object-oriented design, data management, software testing, and quality assurance.
- Practical Software Development Project
Successfully completed a capstone project applying business and technical skills to create real-world software solutions.
- Exposure to Advanced Technologies
Familiarity with cloud computing, machine learning algorithms, and conversational user interface development.

Bachelor's degree, Computer Science

2013

Hong Kong Metropolitan University

- Utilize computer programming for problems solving and software development.
- Communicate technical information capably and engage in a collaborative software development environment effectively.
- Analyze problems critically and formulate solutions with techniques in computer science for various industries.
- Perform competently the work of a professional in computing and IT industry.
- Engage effectively in projects involving the integration of techniques in computing and IT applications.

Associate degree, Information Technology

2010

HKCC, The Hong Kong Polytechnic University

- Gained strong foundational skills in mobile app development, cloud computing, and machine learning.
- Completed hands-on projects and seminars led by IT professionals, enhancing practical knowledge.

- Acquired proficiency in key areas such as computer networking, data structures, and database systems.
- Achieved a high articulation rate, with opportunities for further academic progression in IT fields.
